MWEEP
Education & Empowerment Program

MWEEP Kenya

“We want a different life for our daughters”

MWEEP

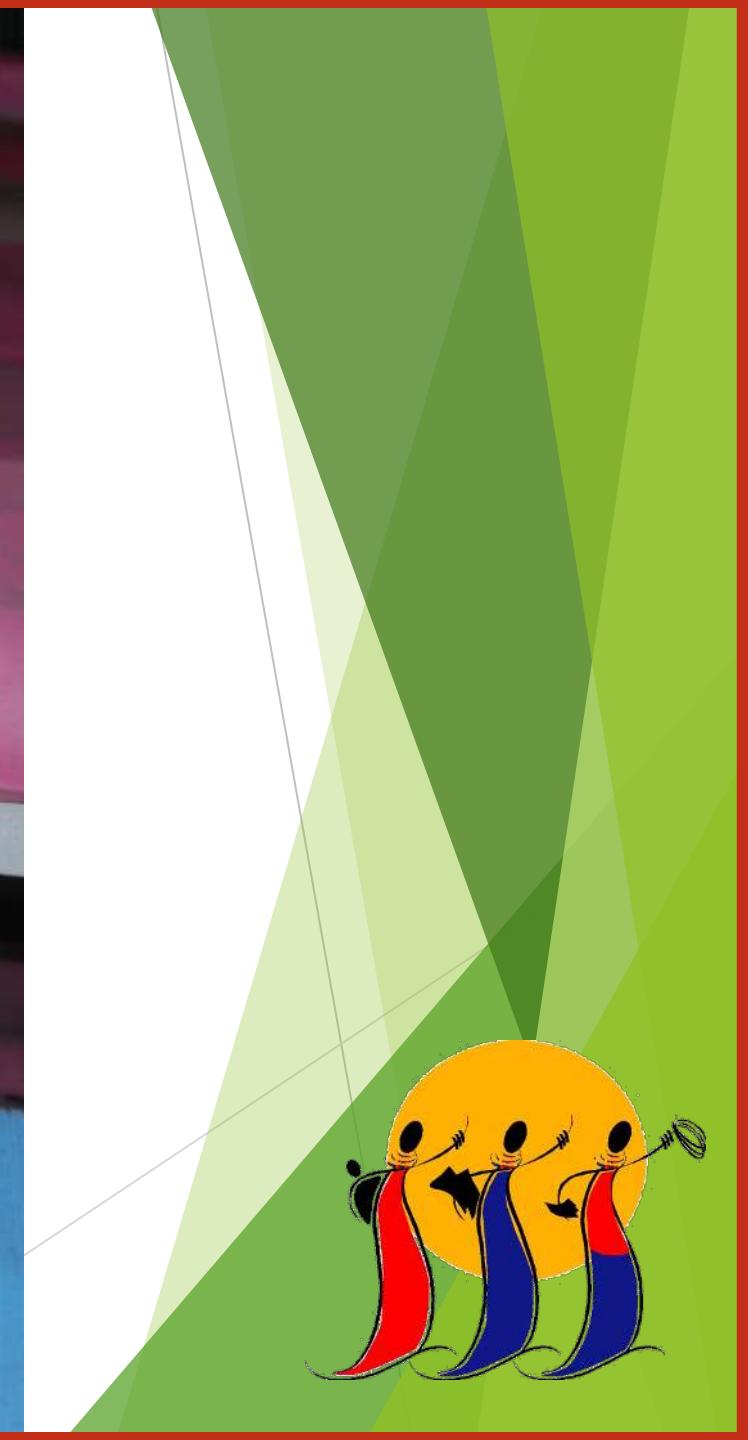

Maasai Women's Education and Empowerment Program
Mission: Provide educational opportunities to empower girls and women in Kenya

Education is changing lives

When girls are educated,
amazing things happen:

Education drastically reduces child marriage.

Education

- empowers girls with new ways of thinking
- helps a girl respect herself and be respected

- Girls marry later
 - Almost 60% fewer girls would become pregnant under the age of 17 years in Africa if they had a secondary education.
 - Education empowers women to overcome discrimination and to be aware of their rights.

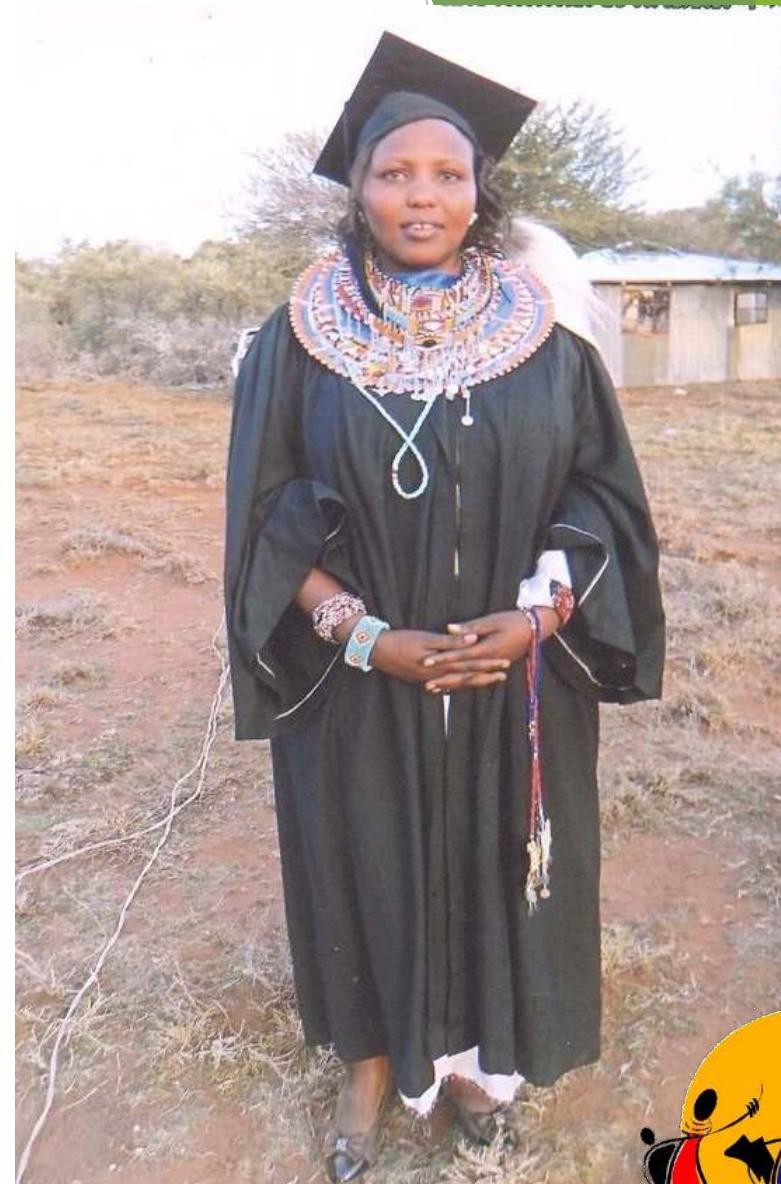

EDUCATION

*creates leaders

*boosts a girl's future earnings by 10-20%

*teaches the importance of health care and how to seek it for themselves and their children

*changes how a woman raises her children

- Educated mothers educate their children
 - Each year of a mother's education raises the likelihood of her child's enrollment in school by nearly 6%
